**Presented by Steve Gardner, Family Life Education Specialist**

This presentation is interactive, humorous and informative, while helping parents address some of the challenges in talking to their kids! Wondering how to bring up the subject of sex or how to answer your child's questions in an age appropriate manner? Here are tips and strategies for you to talk to your child about growth and development. An overview of the types of questions children might ask will be given. Steve will bring books to peruse and a bibliography of recommended reading for children and parents.

This presentation is ideal for all parents, but especially so for those with children in grades 3<sup>rd</sup> through 5<sup>th</sup>. Hope to see you there!
