

EDNA MAGUIRE

2008 - 09

YEARBOOK

The theme of the 2008-09 yearbook is about the Art of Learning and how Edna Maguire is the “Museum” for our artist thrive and grow.

The classes, activities, teachers and administration all represent opportunities for the students to illustrate and express themselves within the framework of being artists. Whether it be through writing, math, painting, music or physical education, this yearbook highlights the students as artisans.

We have coordinated with the art teachers to have each student prepare a piece of art to be included to personalize their own Yearbook!
